

Grass Greenzit

PERMANENT GREEN PIGMENT FOR GRASS

For use on turf to camouflage the unappealing visual effects of dormancy and discoloration due to disease, drought, or the misapplication of pesticides.

ACTIVE INGREDIENT:

Pigment Solids 22.50%

Keep Out Of Reach Of Children

CAUTION

FIRST AID

- IF SWALLOWED: Drink 1 or 2 glasses of water, induce vomiting by touching the back of the throat, contact a physician or poison control center.
- IF INHALED: Remove to fresh air.
- IF ON SKIN: Wash exposed areas with soap and water, seek medical attention as needed.
- IF IN EYES: Flush eyes with water, contact a physician for irritation as needed.

PRECAUTIONARY STATEMENTS

• HAZARDS TO HUMAN AND DOMESTIC ANIMALS

CAUTION—Harmful if swallowed. Avoid contact with skin. Wash hands thoroughly after using. Avoid contact with eyes. In case of contact with eyes, flush eyes for 15 minutes with water and seek medical attention if irritation persists. If taken internally, induce vomiting and seek medical attention. Avoid breathing spray mists. Keep children and domestic animals away from treated areas until the spray solution has dried.

• PERSONAL PROTECTIVE EQUIPMENT (PPE)

Wear protective clothing when handling or applying this product including long pants, long-sleeve shirt, and impermeable gloves and boots.

USER SAFETY RECOMMENDATIONS: User should wash hands before eating, chewing gum, using tobacco, or using the toilet. Wash outside of gloves before removing.

• ENVIRONMENTAL HAZARDS

Do not apply directly to water or contaminate water by cleaning of equipment or disposal of waste. Do not contaminate irrigation ditches or water used for domestic purposes. Do not spray when the wind is blowing sufficiently to cause drift. Use coarse sprays to minimize drift. Maintain spray boom pressure as low as possible to minimize drift. Flush spray tank and lines in a suitable non-crop area after use.

• STORAGE AND DISPOSAL

Storage: DO NOT contaminate water, food, or feed by storage or disposal. Store in original containers only in a secured area inaccessible to children and unauthorized persons. KEEP FROM FREEZING.

Chemical Disposal: Spray solution, tank rinsate, or product that cannot be used according to label instructions, must be disposed of in accordance with all applicable federal, state and local laws.

Container Disposal: Do not reuse empty container. Triple rinse (or equivalent) and offer for recycling, reconditioning or dispose in a sanitary landfill, or by other methods according to federal, state or local laws.

**Keep From Freezing.
Shake Well Before Using!**

GENERAL INFORMATION

GRASS GREENZIT is a permanent green pigment for grass. It is a water dispersible concentrate specially formulated for use on turf to overcome the unappealing visual effects of dormancy and discoloration due to disease, drought, or the misapplication of pesticides. GRASS GREENZIT is a pigment, not a dye. It will not wash off nor fade in brilliant sunlight. GRASS GREENZIT is harmless to all cool season and warm season grasses and is recommended for golf course fairways, athletic fields, cemeteries, parks, industrial lawns, and home lawns.

DIRECTIONS FOR USE

Spray Precautions (Read Before Using Product): Stir or agitate GRASS GREENZIT before using. To insure drying, it is best to spray when the temperature is above 40°F and no immediate rain is anticipated. Do not spray on windy days. Be careful not to spray pavements, buildings or masonry as staining will occur. It is imperative that spray tanks be washed thoroughly immediately after use. Also remove and wash nozzles, tips, and screens. Wear only old clothing and old shoes when spraying, as indelible staining may occur.

Mixing: Shake or agitate GRASS GREENZIT immediately prior to use. Add GRASS GREENZIT to the entire amount of water in the spray tank and agitate continuously with paddle and/or bypass agitation. Do not prepare more spray solution than will be used at one time.

Equipment: Various types of hand sprayers and power sprayers may be used to apply GRASS GREENZIT. Backpack, knapsack, and portable sprayers such as manufactured by Solo, Birchmeier, Chapin, D.B.Smith and others may be used, as well as mist blowers and most commercially available power sprayers. Relatively low pressure and relatively coarse droplet size is ideal.

Dilution And Coverage

Summer Application (For Discolored Grass): Depending on degrees of discoloration and color preference, prepare the spray solution by adding 4-10 fl oz of GRASS GREENZIT per gallon of water. Spray the prepared solution at approximately 110 gal/acre (2.5 gal/1,000 sq ft). One application will last until new green growth occurs. Most fungicides may be tank mixed with the GRASS GREENZIT spray solution. Refer to the fungicide label and manufacturers recommendation.

Winter Application (For Dormant Grass): Prepare the spray solution by adding 10-18 fl oz GRASS GREENZIT per gallon of water. Spray the prepared solution at approximately 130 gal/acre (3 gal/1,000 sq ft). One application will last throughout the winter until natural greening occurs.

Keep From Freezing.

LIMITED WARRANTY AND DISCLAIMER

CLEARY CHEMICAL CORPORATION warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use, subject to the risks referred to therein. CLEARY CHEMICAL CORPORATION makes no other expressed or implied warranty of fitness or merchantability or any other expressed or implied warranty. In no case shall CLEARY or seller be liable for consequential, special or indirect damages resulting from the use or handling of this product including, but not limited to, loss of profits, business reputation, or customers, labor costs, or other expenses incurred in planting or harvesting. CLEARY and seller offer this product and the buyer and user accept it subject to the foregoing conditions of sale and warranty which may be varied only by agreement in writing signed by a duly authorized representative of CLEARY CHEMICAL CORPORATION.
