

Flo Thru™ Plus is a concentrated soil penetrant that breaks water tension and provides uniform water penetration throughout the soil.

Flo Thru™ Plus contains Salicylic Acid (SA) which enables the turf tissue to retain more water and enhances the plant's immune system to react faster to stress recovery. The results are an improvement in the plant's ability to recover from heat and drought stress.

Flo Thru™ Plus provides the following benefits:

- Reduces dew on early morning turf
- Promotes healthier turf and more consistent playing conditions.
- Dramatically reduces water loss from runoff and evaporation.
- Evenly distributes water.
- Decreases channeling of water through soil profile.
- Reduces water costs.
- Reduces energy consumption.
- Increases speed of greens.
- Dries out courses faster after heavy rainfall.
- Allows carts on courses more rapidly after heavy rainfall.
- Helps control sodium levels more cost effectively.

Flo Thru™ Plus can be applied with tank spray equipment or irrigation systems

■ **Weight per gallon: 8.80 lbs. (3.99 kg)**

■ **Derived from: Proprietary blend of surfactants – NJTSR #JC2403**

■ **pH: 3.9**

NOT A D.O.T. HAZARDOUS MATERIAL

Flo Thru™ Plus is a trademark of JADA Corp. and formulated by them.

Flo Thru™ Plus Penetrant

Improves efficacy of liquid fertilizers.
Provides uniform water movement.
Contains Salicylic Acid.

Directions for Use:

Greens, Tees and Fine Turf: Apply 1 - 2 oz. of **Flo™ Thru Plus** per 1,000 sq. ft. every 4 weeks or as needed. Apply with 2 gallons of water per 1,000 sq. ft. For difficult areas, increase rate to 3 - 4 ounces per 1,000 sq. ft.

Fairways, Roughs, Sports Turf and Lawns: Apply .3 - .7 gallon of **Flo™ Thru Plus** per Acre (1 - 2 oz. per 1,000 sq. ft.) every 4 weeks or as needed. Apply with 2 gallons of water per 1,000 sq. ft. For difficult areas, increase rate to 1 - 1-1/3 gallon per acres (3 - 4 oz. per 1,000 sq. ft.).

Fertilization: Inject 24 - 48 oz. of **Flo™ Thru Plus** per Acre every 4 weeks or as needed.

FloThru™ Plus is compatible with most chemicals and liquid fertilizers. Before using, test the tank mix for compatibility and effect on turf quality.

Application Rates for Flo Thru™ Plus		
Fluid Oz/ 1,000 sq. ft.	Gallons/ One Acre	ML/ 1,000 sq. ft.
1 oz	0.3 Gal	30 ML
2 oz	0.7 Gal	59 ML
3 oz	1.0 Gal	89 ML
4 oz	1.4 Gal	118 ML

Tank Mixing Information:

Prior to any fertilizer or pesticide application, all spray mixing and application equipment must be cleaned. A quality tank cleaner is recommended. Carefully observe all cleaning directions on the pesticide and fertilizer label. Fill the spray or mix tank at least 3/4 full of water and begin agitation. Add pesticides and/or fertilizers as directed by labeling or in the following sequence:

- 1) Dry flowables or water dispersible granules, 2) Wettable powders, 3) Flowables,
- 4) Emulsifiable concentrates, 5) Water based solutions, 6) Compatibility agents,
- 7) Micronutrients and Fertilizers, 8) Spray adjuvants

Before mixing multiple chemicals and/or fertilizers in the tank, confirm product compatibility by performing a jar test. Be sure to mix with plenty of water.

Caution:

Keep away from children and domestic animals. Avoid contact with eyes, open cuts, or sores. Harmful if swallowed. External: Flood with water. Internal: Induce vomiting. Contact a physician immediately.

Storage and Handling:

Store in a cool, dry place. Keep container tightly closed. Do not add water or other material to the container. Do not contaminate water, food, or feed by storage or disposal. Do not store near acids or other acidic materials.

Store above 32° F. Do not allow to freeze.

Available Container Sizes:

2 x 2.5 gal (2 x 9.46 L) Case
 30 gal (113.56 L) Drum
 55 gal (208.20 L) Drum
 275 gal (1040.99 L) Tote
